

AT3 3G GPS Asset Tracker

The AT3 is an all-in-one, rugged device featuring a long-lasting battery, tracking hardware and a powerful magnetic mount. With GPS for location tracking and GSM + WCDMA for data communication, the AT3 supports fast and accurate real-time tracking. With a battery that can provide 2.5 years of tracking (at 1 location per day), the AT3 is an ideal self-contained hardware solution for long term deployments.

-  **WCDMA & GSM Network Support**
-  **Tamper Alert**
-  **5400mAh Disposable Battery**
-  **IPX5 Water Resistance**
-  **2.5 Years Standby Time
(1 Position Per Day)**
-  **Strong Magnetic Mount**

Market Applications

Car Rental

Logistics

Fixed Asset

Parameters	
Frequency	GSM: 850/900/1800/1900MHz WCDMA: 850/900/1900/2100MHz
Chipset	High sensitivity GPS chips
GSM/GPS antenna	Built-in quad band GSM antenna, GPS dual-mode antenna
LED indicator	Red: status
Working voltage/current	3.6V/60mA
Tracking hour	80 hours (GPS always ON)
Operating temperature	-20°C ~+70°C
Battery	5400mAh/3.6V lithium battery
Device weight	160g
Device dimension	93.0*58.0*22.0mm
