

JM-LG02 Mini GPS Asset Tracker JM-LG02L Mini LBS Asset Tracker

Small, lightweight, and powerful, the JM-LG02/JM-LG02L is tailored to meet the unique needs of asset tracking. You can place it on any equipment without the need for wiring or power connections. It can protect valuables, increase productivity, and save your business tons of money on unnecessary expenses.

GPS+LBS Positioning(JM-LG02)
Pure LBS Positioning(JM-LG02L)

Intelligent Power Management

Light & Compact Size

750mAh Battery(JM-LG02)
600mAh Battery(JM-LG02L)

Market Applications

Car Rental

Auto Finance

Logistics

Parameters

GSM frequency	900/1800MHz
Chipset	JM-LG02: High sensitivity GPS chips
GSM/GPS antenna	Built-in quad band GSM antenna, GPS ceramic antenna and WiFi antenna
LED indicator	Red: working status
Working voltage/current	3VDC/50mA
Battery	JM-LG02: 750mAh/3.0V lithium manganese battery JM-LG02L: 600mAh/3.0V lithium manganese battery
Operating temperature	-20°C ~+70 °C
Device dimension	48*38*13mm
Device weight	26g
